

5th ICAC3N-2023

ICAC3N is a prestigious international conference that brings together top researchers, scientists, engineers, and scholars from around the world to share their latest research findings and experiences in computing, communication control, and networking. Featuring keynote speeches, technical sessions, and workshops, the conference covers a wide range of topics such as cloud computing, AI, wireless communication systems, IoT, and cybersecurity. ICAC3N offers a stimulating platform for participants to network, collaborate and engage with experts in their fields. All the previous conference proceedings of this series are published on IEEE Xplore, making it accessible to all worldwide.
